

## ETERNAL FATHER'S WISHES FOR 2024

"My child of Love,

Have you seen how many times I have repeated this word LOVE? It is the only one on earth that is important.

The evil one makes everyone believe that the shadow of evil has invaded the earth. What he does not see on the horizon is all my heavenly army rising to the sound of the trumpet and cries of joy. We move forward, we move forward like a trail of glowing powder all over the earth.

The army of the shadow rubs its hands thinking: we won, we had them well.

They don't see, because I put scales on their eyes, preventing them from seeing my light. They do not see, they do not hear, for they are so proud that they think they have extinguished all the light of love in the eyes of my children.

They are so proud of themselves, the greats of this world, that they do not even see what is happening under them: this loving luminescence that is winning the world, little by little without making noise.

Just word of mouth, and some media (here the Lord smiles...).

Live with hope, do not let yourselves be buried by the general thought. Look to me, your heavenly Father.

My Holy Spirit is in you, He will guide you, He will show you the right way, the words to say when you are in difficult situations.

Listen to your guide, Jesus, trust him. He knows where you have to go, how you have to behave in this or that situation, so as not to be «slaughtered, destroyed, damaged».

Stop trying to talk about yourself, let the little voice guide you. It is not with your own strengths that you will succeed, it is by letting me speak in you.

From an uncountable situation, totally complicated, I can return it to your advantage.

Call your guardian angel, call your holy angels, and they will face the enemy.

Henceforth, you are no longer alone, since you have Me within you. The fight is not by arms, but by LOVE.

Every human being has a germ of love, even the worst. It is the latter that must be sought, even if it is far, far, far, he is there! I know where to find him.

You can live with Hope, trust yourself, I AM in you.

This is my message for this year.

Your Abba, Father"
